IJInvestor – the infrastructure funds and M&A hub within IJGlobal – today (18 April) launches its debut quarterly report ranking the industry by funds raised, profiling the organisations that lead performance on an international and regional level.

The inaugural IJInvestor League Tables analyse comprehensive data from over the course of the last 5+ years (starting 2018) to pinpoint the leading infrastructure fund managers, ranking their performance according to equity and debt deployed.

The League Tables rank the foremost funds by strategy, sector and region while also identifying the most active advisers – legal and financial – and placement agents, all of which have joined forces to drive forward this burgeoning market.

Top Advisers from Q1 2023 – Q1 2024:

- Legal – Weil Gotshal & Manges
- Financial – PwC
- Placement agents – Picton, Mirae Asset Securities and SK Securities

IJInvestor hasn't before released a comprehensive ranking of infrastructure funds. However, we have for many years been tracking movements through our daily news coverage.

An important thing to note, while the timeframe doesn't take into account the multiple not yet closed acquisitions of infrastructure asset managers, we would be loath not to mention it. There is no doubt that these acquisitions, when they begin closing later this year, these league tables will change dramatically – making it an exciting time for IJInvestor to deep dive into these rankings.
