

Sponsored Post: Taking on Climate Change in the IRA Era

CohnReznick

19/09/2024

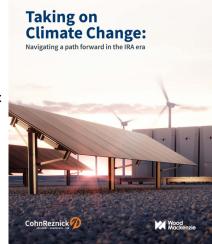

The Inflation Reduction Act (IRA) is transforming the clean energy landscape in the U.S. With its numerous incentives, the IRA is ushering in a new era of renewable energy development.

This report from CohnReznick and Wood Mackenzie provides an overview and insights into the benefits and challenges of navigating the extensive new regulations and requirements, with a particular focus on transferability, new prevailing wage rules and more.

CohnReznick's Renewable Energy Practice offers comprehensive services, including tax equity advisory, technical accounting, and infrastructure advisory. They support developers, power producers, investors and utilities in structuring deals and meeting tax and financial reporting obligations.

Their expertise spans the renewable energy spectrum, providing holistic solutions to complex challenges and actively contributing to industry thought leadership. By leveraging their deep industry knowledge, CohnReznick helps clients maximize opportunities and navigate the evolving landscape of renewable energy.
